How much do you value your time?

The first thing we have to understand is that time is the most valuable resource we have. Essentially, getting higher profits from our time invested may be even more important than getting profits from our money invested.

Today, the majority of people make their money the traditional way: “trading time for pay”. However, here is the problem: our amount of tradable time in a day is limited. For example, a doctor can only see so many patients in a day; a mechanic can only fix so many cars.

So as long as we are healthy and have a job, we can trade our time and earn

money in return. When our time runs out, of course the wages stop, because we have no more time to trade.

The traditional business model of trading time for wages can rarely provide the financial security that people really want, because traditional business does not allow you to leverage your time and build residual income.

What is residual income? How can it benefit you?

To illustrate the power of profits and residual income: if you had a million pounds in the bank, earning 5% interest per year that would earn you £50,000 profit per year.

For as long as that million pounds remains deposited in the bank, your deposit will earn £50,000 in profit each year. That is called residual income.

However, we all know how hard it is to make and save a million dollars a year. This proven business model enables the every day working person to generate residual income. This is what network marketing is all about.

With traditional business, your income is based on what you do all alone, trading your time for money, without earning anything for the work you have done in the past. That's not the case with the Ardyss business model.

In the Ardyss Network Marketing Plan, we teach our distributors how to invite others to consume our products every month. This allows our distributors to earn residual income on their past effort as they leverage off the effort of many people.

Your Ardyss Business and the Power of Duplication

It is said that we will not become wealthy from 40, 60, or even 80 hours a week of our own effort. The secret is to leverage our time and money by earning income from the efforts of others. That's what makes Ardyss International's compensation so powerful.

The Duplication Principle

Ardyss realises that network marketing is the principle that every successful person has used to gain wealth. Following this principle, distributors can learn how to create massive duplication throughout their team.

Let it Work for You

To illustrate how the Power of Duplication can work for you, let's go through a simple exercise. Do you know 5 people that want to look and feel better and earn extra money? Can you teach your distributors to do the same? Continue this simple duplication exercise for 6 short months and you won't earn what you're worth, you'll earn more.

The Power of Duplication creates a very powerful doubling effect. If you could double, triple, or quadruple your efforts each and every month while teaching others to do the same duplication, you can become solvent in a short period of time. Additionally, the people you recruit would also become solvent, and that's a win-win situation for everyone.

Do not be misled by claims that high earnings are easily achieved (Trading Standards Regulations 1997)

Do the Maths

With the help of your sponsor, let's see what would happen if you recruited 5 distributors and taught each of them to do the same over 6 consecutive months. By sharing the Power of Duplication, you will see how fast your business will grow in just 6 consecutive months.

Months	Sponsors	Total
1	You enrol 5	5
2	Those 5 enrol 5 each	25
3	Those 25 enrol 5 each	125
4	Those 125 enrol 5 each	625
5	Those 625 enrol 5 each	3,125

Achieving these kind of numbers will require significant time and effort on the part of the distributors

Continue this for a year and imagine what your commissions would be!

The incredible thing to note here is that all you did was recruit 5 distributors and helped them to do the same and duplicate themselves.

With the Power of Duplication, you also become your best testimony in selling the Ardyss products and business opportunity to others. Just think of how the Power of Duplication could work for you and where your business could be 6 months from

today, if you were to recruit more than 5 people per month, and shared with them the concept of doing the very same for 6 months. In addition, just think of where your business would be if you shared the concept with 5 people in a week or even a day!

The Power of Duplication principle helps ordinary people to achieve extraordinary results.

It is illegal for a promoter or a participant in a trading scheme to persuade anyone to make a payment by promising benefits from getting others to join a scheme (Trading Scheme Regulations 1997)

6 Generational Commission

Understanding the Generational Commission

Monthly payment

Generational Bonuses are additional percentages earned when a distributor chooses to get involved in the Ardyss Business Career.

This starts when the distributor makes at least 10,000 GQP. From there on, distributors could qualify to receive a 4% additional commission on all the purchases of her/his group and is only interrupted at the moment a new generation is uncovered.

Also, as the group grows, more generations are uncovered and therefore you also collect additional percentages from them, as shown in the following chart:

Achieving these kind of numbers will require significant time and effort on the part of the distributors

Generation	Manager B	Director	President	Executive	Diamond	Platinum
1	4%	4%	4%	4%	4%	4%
